

BELGURI BADRDINE

COMPUTER SCIENCE STUDENT | ASPIRING AI ENGINEER

Algeria • +213 XX XX XX XX • your.email@example.com • GitHub: github.com/yourusername • LinkedIn: linkedin.com/in/yourusername

PROFILE

Computer Science student with a strong interest in Artificial Intelligence, software development, and web technologies. Hands-on academic experience with Java, JavaScript, databases, OOP, UML, and web applications. Motivated to deepen technical expertise through graduate studies in AI and build practical, impactful software solutions.

EDUCATION

Bachelor's Degree in Computer Science
Université / Établissement à compléter | 2023–2026
Focus: Programming, Algorithms, Databases, Software Engineering, Web Development

CORE SKILLS

Programming
Java • C • Pascal • JavaScript
Web
HTML5 • CSS3 • JavaScript • Jakarta Servlet
Database
SQL • Microsoft Access • Delphi/ADO
Concepts
OOP • Data Structures • Algorithms • UML
Tools
Eclipse • VS Code • Apache Tomcat
AI Interests
Machine Learning • Deep Learning • Computer Vision

SELECTED PROJECTS

E-Commerce Website | HTML • CSS • JavaScript

Designed a responsive clothing-store interface with structured pages, modern styling, and interactive front-end components.

Java Web Authentication App | Java • Jakarta Servlet • Apache Tomcat

Built a login/authentication application using Servlets, OOP, request handling, validation logic, and dynamic HTML responses.

Supermarket Management Interface | Java Swing • OOP

Created a desktop management interface and applied core OOP concepts including classes, inheritance, and event-driven GUI programming.

Database Management Application | Delphi • Microsoft Access • ADO

Developed an academic database application for managing subscribers, books, and loans, with data access and reporting features.
